

TROSIFOL PRODUCT GUIDE

TROSIFOL - YOUR GLOBAL PARTNER FOR LAMINATED SAFETY GLASS

Kuraray's Trosifol business is a leading global specialist in the development, manufacture and supply of PVB and ionoplast interlayers for laminated safety glass applications in the architectural, automotive and photovoltaic industries.

The evolution of the Trosifol & Glass Laminating Solutions (GLS) merger has resulted in consolidation of the Trosifol, SentryGlas® and Butacite® product brands into a single brand: the new Trosifol.

Trosifol offers the world's broadest portfolio of innovative glass-laminating solutions, including structural and functional interlayers for safety and security applications, sound insulation and UV protection. For decorative applications, Trosifol supplies colored interlayers, digitally printable films and other innovative products for interior design projects. Trosifol® UltraClear films exhibit the lowest Yellowness Index (YID) in the industry.
